

New Missions Initiatives for 2009

Trinity's Missions Director **Rev Jeffrey Wong** shares what's new for missions in Trinity.

Thank you Trinitarians for praying, giving and going to the nations. Countless lives have been impacted and transformed through both our Global Missions and Local Missions expressions.

This year, there will be greater opportunities for you to be involved. We are enhancing our current initiatives as well as introducing new ones in two main ways:

**Humanitarian
Missions**

**Missions
Impact Trips**

Global MISSIONS

**Training and
Consultation**

**Crisis
Relief**

**Global
Ministries
Support**

1) Church Development

We will expand our training platforms beyond helping churches with their carecells. We want to help churches through Leadership Development and Organisational Development so that they can become strong churches that will impact their communities.

2) Community Transformation

Beyond the shores of Singapore, there are so many lives in need of help. Through Humanitarians Missions and Crisis Relief efforts, we seek to network with other churches

and organisations to see communities arise from the ashes of brokenness and poverty and move towards wholeness and sufficiency. Besides supporting them through giving, we will also be sending more Missions Impact Teams on such trips.

Trinitarians, ask God to give you a Passionate Heartbeat for the nations. Then step out in faith to bring God's love and hope to this nation and beyond. God will do Miracles in Missions – through you!
